

Praveen Kumar

PHP LAMP Laravel Full Stack Developer

• praveenk.vishwanatha@gmail.com • (91) 954-223-3872 • Secunderabad, Telangana State, India

WORK EXPERIENCE

9/2021 - 3/2023 **WebMatrix Inc**, *Senior Full Stack Developer*

Developed and maintained web applications using PHP, LAMP stack, and RESTful APIs. Collaborating with team members to deliver quality products to the market. Debugging and solving bugs on time to maintain the application's performance.

6/2019 - 6/2021 **TicketNetwork Inc.**, *Senior PHP/Full Stack Developer, Hyderabad, India*

Created PHP web applications using WordPress, and I consistently delivered commercially viable products to the market. I worked collaboratively with my team to ensure high-quality product delivery.

6/2017 - 8/2018 **Ducere Technologies Pvt. Ltd.**, *PHP LAMP Full Stack Developer, Secunderabad, Telangana, India*

My expertise also includes writing complex scripts, load testing, security, and implementing web services like REST API's for end-users. I planned and implemented database schema design and use cases, and I have developed and implemented mobile and web applications for internal use. Additionally, I managed relationships with 3rd party vendors during the development of various site features that required specialized development skills.

9/2015 - 5/2017 **EPAM Systems India Pvt. Ltd.**, *Lead Software Engineer, Hyderabad, India*

As a team leader, I have successfully led a team of developers towards the completion of various projects. I participated in sprint planning, retrospective, and sprint review meetings as part of the agile methodology. Moreover, I identified code vulnerabilities reported by Checkmarx Static Application Security Testing (SAST) tools.

12/2014 - 8/2015 **Human Resources Development Fund**, *PHP Web Developer, Riyadh, Saudi Arabia*

I have also worked on the integration and development of an Employment and Training Management System (ETS). I wrote source code using Core PHP and JavaScript and managed complex SQL queries, procedures, and triggers according to project specifications. I integrated SimpleSAMLphp single sign-on authentication using native PHP.

1/2012 - 7/2014 **IBM India Pvt. Ltd.**, *Process Automation Analyst, Bangalore, India*

Built a PHP website using Yii2 PHP-based framework, conducted cross-browser usability testing against W3C, and integrated and configured LDAP, SSL, and SSO (Single sign-on). As a Process Automation Analyst, I identified troublesome processes, optimized and possibly automated features according to project specifications.

11/2009 - 12/2011 **Yahoo Software Development India Pvt. Ltd**, *Lead Engineer, Bangalore, India*

I have built reusable code and libraries for future use. I optimized the application for maximum speed and scalability and collaborated with back-end developers and web designers to improve usability.

11/2008 - 10/2009 **ACIES Technology Solutions Pvt. Ltd**, *Senior Developer, Bangalore, India*

3/2008 - 10/2008 **Dalason Software Solutions Pvt. Ltd**, *Senior Software Engineer, Bangalore, India*

1/2007 - 2/2008 **Invengence Technologies Pvt. Ltd**, *Senior Programmer, Pune, India*
